Typography System

Mahjong tile typography is part of the game artwork and intentionally uses Poppins to maintain consistency across all tile assets, while the application interface uses Outfit.

Outfit

- Primary UI font
- Used for headings, body copy, buttons, labels, navigation, forms, interface elements.

Poppins

- Gameplay tile font only.
- Used on tile numbers/lettering where applicable.

Responsive Note: Font sizes shown represent the base design system. Sizes may be scaled proportionally for smaller breakpoints while maintaining the same typographic hierarchy.

Typography Principles

- Sentence case for headings and body copy.
- ALL CAPS for buttons and small UI labels only.
- Links are underlined.
- Left align body copy.
- Center align hero messaging when appropriate.
- Maintain consistent spacing and hierarchy across all screens.
